DETAILED ACTION

1 This action is responsive to after final dated on January 28,2004.

2 Claims 23-55 are allowed.

STATEMENT OF REASONS FOR ALLOWANCE

3 The following is an examiner's statement of reasons for allowance.

Terranova et al. (WO 97/49378) teaches a method for hair dyeing using a dyeing composition comprising at least one pyrazolo[1,5-a]pyrimidine derivative of a formula (I), in which R_1 , R_2 , R_3 and R_4 , may be identical or different denotes a di(C_1 - C_4)alkylamino(C_1 - C_4) radical (it being possible for the dialkyls to form a 5- or a 6-membered aliphatic or heterocyclic ring) (see page 3, formula 1, and lines 18-24). However, patentee differs from applicant in that Terranova et al. does not teach or suggest at least one unsaturated cationic group of formulae (II) and (III) or saturated cationic group of formula (VI) is attached to the pyrazolo[1,5-a]pyrimidine derivative of the claimed formula (I). Accordingly, the claimed subject matter as a whole would not have been obvious to one having ordinary skill in the art of chemical compounds or hair dyeing formulation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
